What is XDC Network

▶ XDC is a hybrid blockchain platform built to modernize the global trade and finance sector through an accessible, efficient, and highly versatile decentralized infrastructure solution.

▶ XDC is designed to complement the legacy financial ecosystem by providing a permissioned blockchain that governments, enterprises and private firms can use to overhaul their tech stack and power a range of novel use cases.

▶ XDC is the native coin of XDC Network, and it will be used in XDC Swap as a mediator, just like Ethereum (ETH) in Uniswap's AMM.

XDC Network Properties

▶ 2000 TPS

▶ Lowest fee

▶ Transaction confirmation: 2 sec
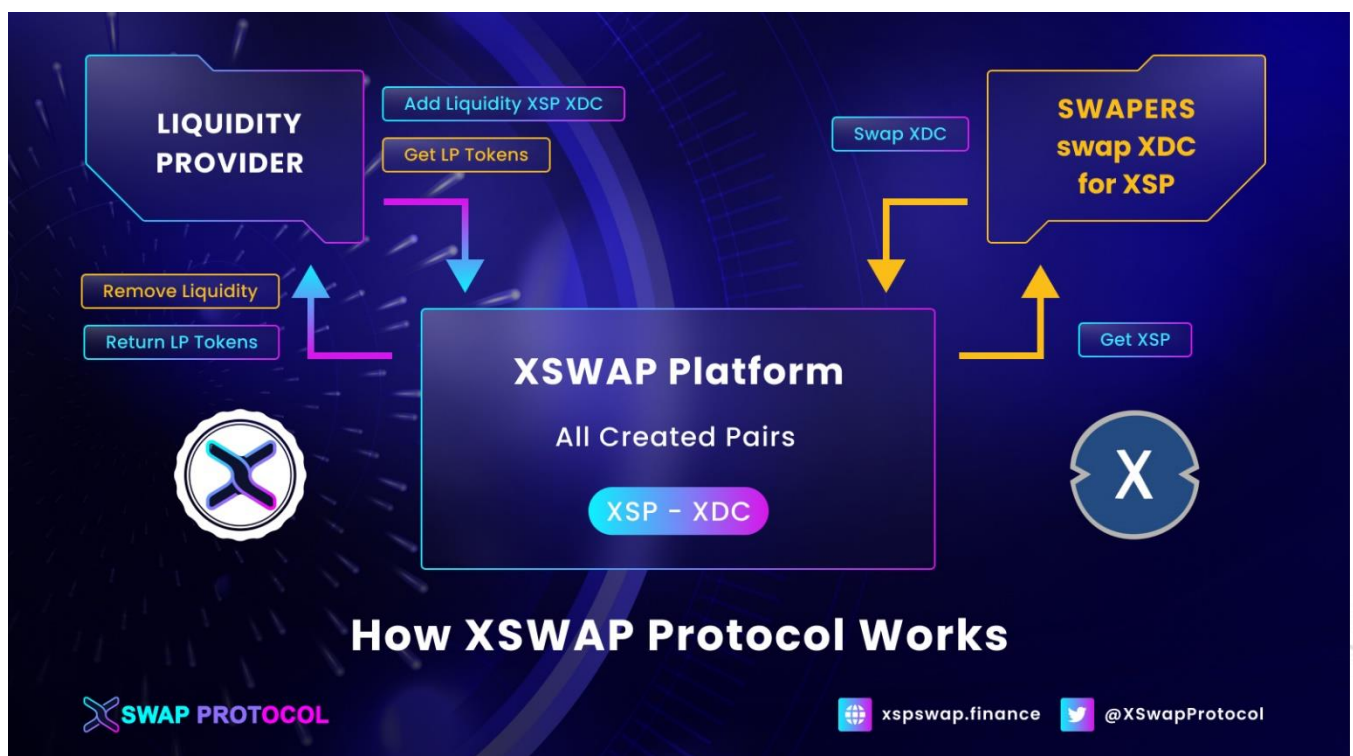

▶ Smart Contract: Yes

▶ Energy Consumption: Green

XSwap's Vision

- Provides many emerging projects under the XDC (XinFin) Network the opportunity to enter the market directly after the completion of the development period.

- Connect all XRC20 tokens in our platform.

- Allow swappers to swap and earn from XSP Ecosystem.

- Creation of an Android app (by our Developers) to facilitate easy use and navigation of our platform, and all other XDC dApps.

Staking & Farming

▶ **XSP Staking** will be launched in a secured pool, profits will be instant & stakers will be able to unstake at anytime.

▶ **XSP Staking** will be launched between **Nov – Dec** depending on the development of our pools.

▶ **Farming** ecosystem will be live after the official launch of XSP Swap. Farming process is staking of Liquidity Providers tokens (LPs) in farming pools.

▶ **Farming rewards** are claimed by whosoever has the biggest balance during that period. Farming period is between 1 to 3 weeks, depending on the rewards to be earned.

▶ Unfarm to remove your liquidity.

▶ We have allocated **37% of total supply** into Staking & Farming rewards ecosystem.

Behind The Curtains

XSP project has full-time developers working tirelessly to ensure security in smart contracts & ecosystem platforms. They prefer to be anonymous like all other DEX teams.

Confidence

Community's trust on this project came by auditing our smart contracts & platforms. XSwap smart contracts were forked & quoted from PancakeSwap & Uniswap.

NOTE: **XSP project is in test mode. Use at your own risk.**
