What is XDC Network

▶ XDC is a hybrid blockchain platform that is built to modernize the global trade and finance sector through an accessible, efficient, and highly versatile decentralized infrastructure solution.

▶ XDC is designed to complement the legacy financial ecosystem by providing a permissioned blockchain that governments, enterprises and private firms can use to overhaul their tech stack and power a range of novel use cases.

▶ XDC is the coin of XDC network it will be used in our XDC Swap as mediator like Ethereum ETH in Uniswap AMM.

XDC Network Properties
